

(c) REMARKS

The claims are 15-24 with claims 15 and 20 being independent. Claims 19 and 20 have been amended as to form. Claims 15-18 are allowed. Claim 19 contained a minor informality, but was otherwise allowable. Reconsideration of the claims is requested.

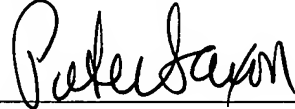

Claim 19 has been corrected and is now in allowable form. Claims 20-24 were allowable once the Rule 112, first and second paragraph, objections were resolved.

Claims 20-24 were rejected under Rule 112, first and second paragraphs, on the ground it was unclear if the only substituent on CyN1 and CyC1 is pyrenyl or if CyN1 and CyC1 may have one or more substituents in addition to pyrenyl. To resolve this informality, claim 20 has been amended pursuant to page 9, line 26 to page 10, line 9 and original claim 1 to permit the indicated optional substituent(s). It is believed the informality has been resolved.

Accordingly, since all the claims are now believed to be in allowable form, it is requested that the case be passed to issue. If any issues remain, the Examiner is requested to contact the undersigned in an effort to resolve them.

Applicants' undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our below listed address.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Peter Saxon", written over a horizontal line.
